

# Portfolio Software QA

Nike Yulistia Angreni

I'm working as Quality Assurance. I attach several projects that I participate in it.

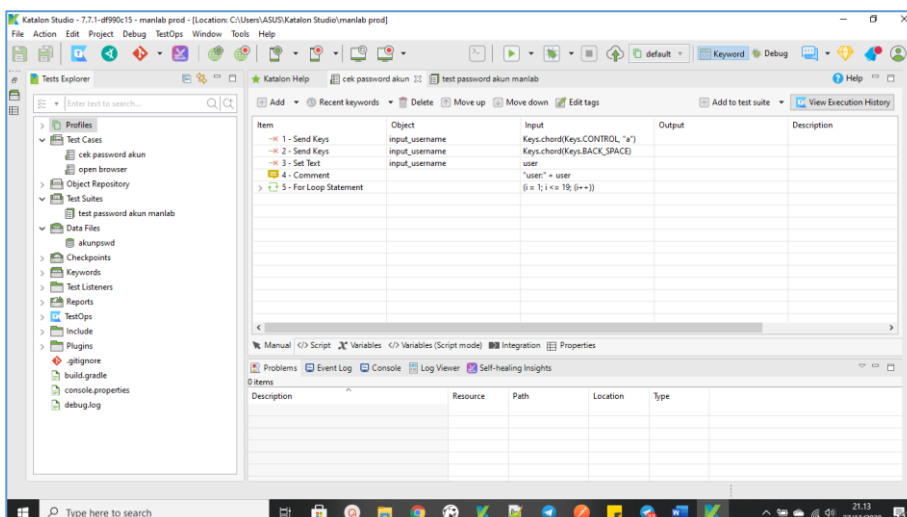

## Jabar Digital Services

1. Lab Management Information System for covid-19 in West Java Government
2. Web Lab Management Information System for covid-19 in West Java Government
3. Hakordia (World Anti-Corruption Day), online petition application on west java government

## Lab Management Information System for covid-19

This is an application that manage data covid-19 patient computerized, from registration to final result. Application is used on central regional lab on west java.

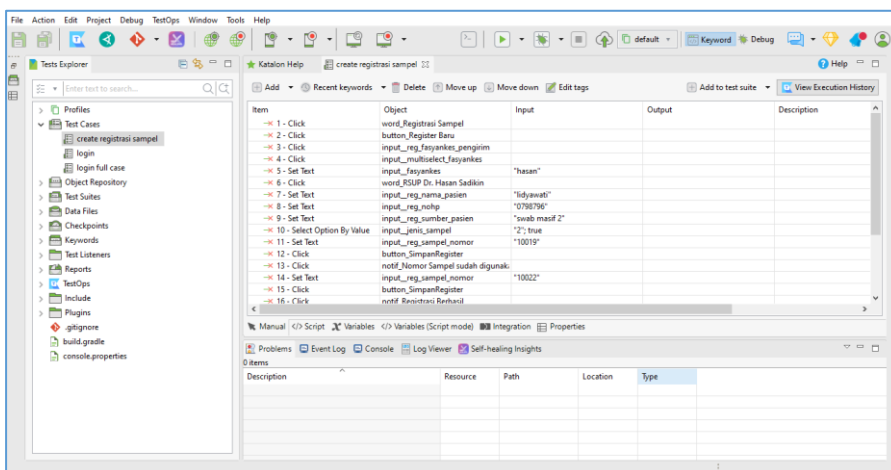

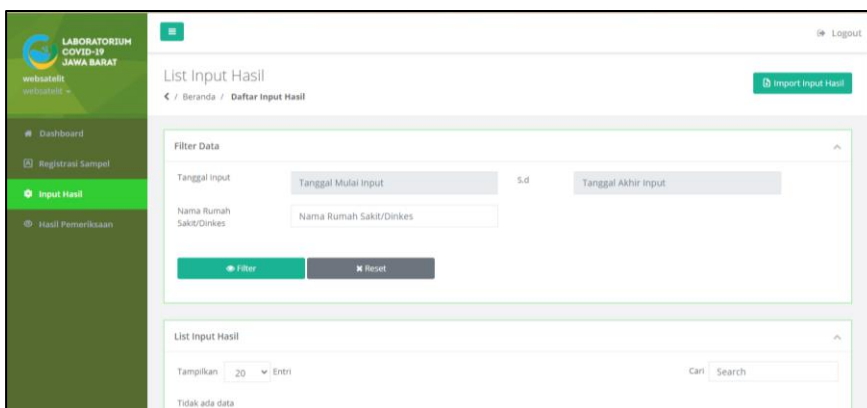

Most of testing using manual testing. Some cases using automation with Katalon studio. This is the tools that support testing:

1. Trello, to manage tasks.
2. Inspect element and firebug, as browser tools
3. Dbeaver, to check databases
4. Sentry, application that gives error log from application
5. Katalon Studio, for automation testing.
6. Google sheet, to create bug list dan report .
7. Notepad++, to add some note
8. Giltab, as manager Git repository for Katalon Automation test.

## Web Lab Management Information for covid-19

This is an application that manage data covid-19 patient computerized, from registration to final result. Application is used on web lab on west java.

Most of testing using manual testing. Some cases using automation with Katalon studio. This is the tools that support testing:

1. Trello, to manage tasks.
2. Inspect element and firebug, as browser tools
3. Dbeaver, to check databases
4. Sentry, application that gives error log from application
5. Katalon Studio, for automation testing.
6. Google sheet, to create bug list dan report .
7. Notepad++, to add some note
8. Giltab, as manager Git repository for Katalon Automation test.

## Hakordia

This is an application that manage online petition for world anti-corruption computerized, from registration to final result. Application is used on central regional lab on west java.
